

What You **WANT!**

**JohnBean**

**Advancing Technology That Delivers Faster,  
High-Quality Alignments**

John Bean U.S. based Alignment Engineering Center team thinks only about wheel alignment. Their core belief is that delivering great products that improve reliability of service and time savings requires dedication to the industry. That is why they have maintained their Alignment Center of Excellence with a dedicated alignment engineering team.

**So how is it that JohnBean continue to advance innovation?**

Some people think it is because their dedicated engineering team is smart, others believe it is because they focus only on alignment, but perhaps it is because, as the inventor of imaging alignment, John Bean had a long head start.
