

About Inlett

History

Formed in 1992 Inlett Inc. was the result of the transition of Fort Ignition, a large automotive warehouse distributor/jobber in Western Canada, to UAP Inc., now NAPA. Inlett's mandate was to manage commercial/ industrial properties with the largest tenant being UAP. Since then we have expanded property holdings and diversified to computer systems applications, hosting and networking, business management, automotive equipment and warehouse distribution. Inlett's corporate office is located in Winnipeg, Manitoba where we remain focused on our client base and expansion.

Equipment

Experienced technicians and customer service attendants market and service products for use by automotive, industrial, heavy duty, hospitality and other industrial sectors. All staff is fully trained and knowledgeable in equipment.

Distributing products from manufacturers such as Karcher, John Bean, SPX-OTC, Corgi, Reznor, Dev-Air and others makes Inlett Equipment a full line supplier. Our customer's include automotive dealerships, retailers, installers, heavy duty/industrial accounts, schools, hotels and others. Technicians install and service hoists, compressors, wheel balancers and other equipment. We provide full warranty service for many major equipment product lines.

Of Interest:

- Distributor of major equipment product lines
- In stock inventory and local support
- Warranty and service outlet
- Automotive and industrial equipment, sales and service
- Heavy duty equipment
- Experienced sales technicians
